

INSTRUKCJA INSTALACJI WTYCZEK GRAVITY FORMS

Pierwszym etapem jest zignorowanie okienka które pojawia się poniżej. Musimy uzupełnić pole z kluczem jedynie jak mamy klucz. Wtyczki będą działać jako pełna wersja bez tego.

The screenshot shows the 'Welcome to Gravity Forms' interface. At the top, there are four tabs: 'License Key', 'Background Updates', 'Global Settings', and 'Installation Complete'. The 'License Key' tab is active. Below the tabs, the heading 'License Key' is displayed. A message states: 'Enter your Gravity Forms License Key below. Your key unlocks access to automatic updates, the add-on installer, and support. You can find your key on the My Account page on the [Gravity Forms](#) site.' Below this message is a text input field with the placeholder 'Enter Your License Key'. To the left of the input field is a blue button labeled 'Next'. This button is highlighted with a red rectangular box. A red arrow points from the right towards the 'Next' button.

Klikamy przycisk **NEXT**

Pojawi się monit mówiący że nie podając klucza nie będziemy mieli dostępu do automatycznych aktualizacji.

License Key

Enter your Gravity Forms License Key below. Your key unlocks access to automatic updates, the add-on installer, and support. You can find your key on the My Account page on the [Gravity Forms](#) site.

Please enter a valid license key.

If you don't enter a valid license key, you will not be able to update Gravity Forms when important bug fixes and security enhancements are released. This can be a serious security risk for your site.

Installation Complete

Background Updates

Gravity Forms will download important bug fixes, security enhancements and plugin updates automatically. Updates are extremely important to the security of your WordPress site.

This feature is activated by default unless you opt to disable it below. We only recommend disabling background updates if you intend on managing updates manually.

Updates will only be available if you have entered a valid License Key

☐ Keep background updates enabled

☒ Turn off background updates

Are you sure?

By disabling background updates your site may not get critical bug fixes and security enhancements. We only recommend doing this if you are experienced at managing a WordPress site and accept the risks involved in manually keeping your WordPress site updated.

Global Settings

Currency ? U.S. Dollar ▼

No-Conflict Mode ? ☐ On ☒ Off
Set this to ON to prevent extraneous scripts and styles from being printed on Gravity Forms admin pages, reducing conflicts with other plugins and themes.

Toolbar Menu ☒ On ☐ Off
Set this to ON to display the Forms menu in the WordPress top toolbar. The Forms menu will display the latest ten forms recently opened in the form editor.
